

ATLANTIX CONSTRUCTION LTD

Quality Policy

Atlantix Construction Ltd is committed to providing a construction service which will exceed the customer's expectations and will meet current legislative obligations. Atlantix Construction Ltd has put in place a management system which meets the requirements of the international quality standard ISO 9001:2008 and is committed to complying with this system and the standard.

The importance of and commitment to continually improving the quality management system is recognised by senior management and full support will be given to ideas and initiatives which bring about improvement.

Objectives shall be set and adequate resources in terms of up to date plant, equipment and appropriate technology will be committed to the company's operations to ensure that projects are delivered to the customer's satisfaction.

It is the company's intention to minimise time and material losses from scrap, badly planned work, poor communications and inefficient operations.

In pursuit of this policy, the company will ensure that customer requirements are understood and adequately communicated across the company in order that the customer expectations are achieved. Methodologies will be put in place to measure and monitor customer satisfaction with regular reviews determining appropriate action.

In order to ensure that those working on behalf of the company understand the importance of quality in their work and accept the need to employ only those working practices which will assure the required standard of quality, the company will provide any training and instruction necessary and will monitor its effectiveness.
